## Colour Fastness Guarantee

We are pleased to offer a 10 year guarantee for the colour fastness of Marshall-Tufflex white extrusions and mouldings in a natural weathering environment.

Maximum colour change shall be no greater than level 4 of the grey scale as defined by BS EN 20105-AO2:1994 Colour Scale. Level 5 is no change.

When determining colour differences on weathered surfaces, light cleaning with a non-abrasive soap based cleanser should be used.

This guarantee is for white product colour fastness only and we cannot be held responsible for faulty installation.

The above guarantee is given subject to our standard terms and conditions of sale.
